Erythritol

Chemical overview

| Chemical name | Erythritol | Synonyms and Related Compounds | |
|----------------|--|-----------------------------------|----------------|
| CAS # | 149-32-6 | Formula | $C_4H_{10}O_4$ |
| Specifications | Appearance: White crystalline granular powderÂ Assay: ≥ 99.5% Analysis standard: FCC/USP/BP/Ph. Eur. Kosher, Halal, Non-GMO, Vegan, Gluten Free, Dairy Free | | |
| Packaging | 25 kg net weight carton with two inner plastic linings and vacuum-sealed bag. | | |
| Applications | Beverages, fruit juices, tabletop sweetener, protein powder, dairy products, chewing gum, toothpaste, desserts, sauces, baked goods, oral care | | |
| Description | Erythritol is a naturally occuring sugar alcohol and polyol that is 60-70% as sweet as sucrose but with reduced calories. Erythritol is used synergistically with high-intensity sweeteners to mask aftertastes. Its stability at high temperatures allow erythritol to be used in baking application where aspartame would be unsuitable. | | |

Please reach out to Suzhou-Chem Inc. with any question regarding Erythritol. We would be happy to provide a quote, a sample, or further information regarding its uses and availability.
